ABSTRACT

This report provides information on student performance at the state, regional, and school system levels on end-of-grade (grades 3-8 reading and mathematics) multiple-choice tests and end-of-course (high school subjects) multiple-choice tests administered in 1997-98 for 117 public school systems and 35 charter schools. Beginning in the 1992-93 school year, the North Carolina State Board of Education authorized administration of North Carolina-developed end-of-grade tests aligned with the state's "Standard Course of Study." At the end of the 1997-98 school year, these state-normed tests were administered to more than 553,000 students in grades 3 through 8, and more than 394,000 high school students took multiple-choice end-of-course tests in Algebra I; English I; Biology; Economic, Legal and Political Systems; and U.S. History. Student performance in reading and mathematics at the elementary level has continued to improve when compared to benchmarks established the first year the end-of-grade tests were given. A higher percentage of females than males scored at or above Achievement Level III. Disparities were noted in the performance of subgroups, with fewer Black, American Indian, and Hispanic American students performing at Achievement Level III or higher than White students. For the end-of-course tests, the percentage of students at each achievement level in each subject has remained consistent across the years. Performance among subgroups at the high school level varied but tended to be consistent across subgroups. For the end-of-grade tests, this report contains state summaries, goal summaries, frequency distribution information, and data on student performance by region and local education agency. For the end-of-course tests, the report contains the same information for each subject. An appendix lists the state's charter schools. (Contains 6 figures and 80 tables.) (SLD)

Notice

The multiple choice end-of-grade and end-of-course performance results presented in this report are based on **preliminary data**. The reader is referred to the notes accompanying each table or figure. These notes indicate the revision date of the data used for that table or figure. The reader should note that further corrections may be made to school system data after the date of this report's release. The North Carolina Department of Public Instruction will release a more complete report of State Testing Results (the "Green Book"), after the 1997-98 data verification process has been completed.

Abstract

The 1997-98 North Carolina Preliminary State Testing Results End-of-Grade and End-of Course Multiple-Choice Tests

Background

- Beginning in the 1992-93 school year, the North Carolina State Board of Education authorized administration of North Carolina-developed end-of-grade tests aligned with the *Standard Course of Study*. These state-normed tests were administered to over 553,000 students in grades 3 through 8 at the end of the 1997-98 school year.
- End-of-grade tests measure achievement on curricular goals and objectives with an emphasis on higher-order thinking skills. Multiple choice tests were administered in Algebra I; English I; Biology; Economic, Legal and Political Systems (ELP); and U.S. History to over 394,000 students during the 1997-98 school year.
- Student performance in reading and mathematics has continued to improve in grades 3 through 8 when compared to benchmarks established the first year the end-of-grade tests were administered. Students continue to achieve at a higher rate than anticipated from initial results in 1992-93, and higher percentages of students in most grades and subjects are performing at Achievement Level III or above. Generally, fewer students are performing at the lowest level of achievement.

End-Of-Grade Findings

- Preliminary data from 1997-98 suggest the percentage of students in grades 3-8 performing at Achievement Level III and above in reading and mathematics combined continues to grow, from 52.9 percent in 1992-93 to an estimated 66.3 percent in 1997-98.
- In these preliminary data, mean scales scores for reading increased at least slightly from 1996-97 to 1997-98 at every grade level. Preliminary mean scale scores for mathematics increased somewhat at every grade level except grade 3 (an estimated decrease of .5 points). On average, students are performing better on end-of-grade testing every year.
- A higher percentage of females (69.5) than males (63.2) scored at or above Achievement Level III in these preliminary data. This follows a consistent trend established with the 1992-93 school year's testing.
- Disparities in performance among subgroups were noted. The Black (44.8), American Indian (50.4) and Hispanic (52.0) subgroups had lower percentages performing at Achievement Level III or above than the Multi-Racial (66.8), Asian (73.2) and White (76.7) subgroups in these preliminary data.

**End-Of-Course
Findings**

- The percent of students at each achievement level in each end-of-course subject test has remained consistent across years. Preliminary results from 1997-98 suggest this trend has been maintained.
- A higher percentage of females than males performed at Achievement Level III or above in Algebra I, ELP, and English I, in these preliminary data. Fifty-seven percent of both male and female students performed at Achievement Level III or above on Biology. More males than females scored at or above Achievement Level III on U.S. History end-of-course tests.
- Performance among subgroups varied while tending to be consistent across subjects, in these preliminary data. The Asian subgroup had highest performance only on Algebra I. On Biology, ELP, English I, and U.S. History, the White subgroup had the largest percentage scoring at Achievement Level III or above. On Algebra I, Biology, and ELP, the Hispanic, American Indian, and Black groups had the lowest percentages of students performing at or above Level III. The Hispanic group had somewhat better performance than the American Indian group, which in turn had somewhat better performance than the Black group. On English I and U.S. History, the Black group had somewhat better performance than the American Indian group, which ranked last.

**Students with
Limited English
Proficiency**

- Among students identified as Limited English Proficient, the highest average performance was on Algebra I, with 56.9 percent scoring at Achievement Level III or above. U.S. History (24.5%), ELP (22.8%), Biology (21.2%), and English I (12.7%) saw lower percentages of these students scoring at Level III or above, in these preliminary data.

Introduction

The 1997-98 North Carolina Preliminary State Testing Results document provides information on student performance at the state, regional, and school system levels on end-of-grade (grades 3-8 reading and mathematics) multiple-choice tests and end-of-course (high school subjects) multiple-choice tests administered in 1997-98 as components of the North Carolina Testing Program. The figures, charts, graphs, and tables in this document were generated using preliminary student test data from the end-of-grade spring 1998 test administration and from the end-of-course summer 1997, fall 1997, and spring 1998 test administrations.

The general focus of the *Preliminary State Testing Results* is on student performance on multiple-choice tests administered in 1997-98. However, many data are reported across years in order to show gains in student performance. School-level accountability results are published in the *State Report Card*, which is scheduled to be released in August, 1998.

Preliminary state and system-level results contained within this document may be used to make grade-to-grade, subject-to-subject, and year-to-year comparisons. In addition, comparisons of developmental scale scores of cohort groups as they move through grades 3-8 in reading and mathematics can be made. A variety of statistical descriptions, test scores, and formats have been used to present the aggregate preliminary student data such as mean scores, the percent of students achieving at the four achievement levels, and the percent of students performing at Achievement Level III or above in grades 3-8 or on the state-mandated end-of-course tests.

In addition to the summary statistics, this document contains disaggregated preliminary test results for subgroups for end-of-grade and end-of-course tests. The state-level goal summary reports serve as a curriculum reference of student performance on the curriculum goals across grades and subjects. These results represent average student performance on the curriculum competencies measured in the revised North Carolina *Standard Course of Study*. The frequency distributions provide preliminary state-level summary statistics for 1997-98.

The purpose of this publication is to provide a timely report on student performance on end-of-grade and end-of-course multiple-choice tests from 1993 to 1998 with a focus on preliminary results for the 1997-98 school year. The *State Testing Results*, to be released in the near future, will serve as the final authoritative and comprehensive compendium of student performance on end-of-grade and end-of-course multiple-choice tests.

Preliminary End-of-Grade Results

Grades 3-8

Figure 2. 1992-93 to 1997-98 End-of-Grade Multiple-Choice Test Results
Percent of Students at or above Level III in Reading and Mathematics
Grades 3-8, by Gender

Note: Data received from LEAs and charter schools after July 15, 1998 are not included in this report.

Figure 3. End-of-Grade Multiple-Choice Test Results, 1992-93 to 1997-98
Percent of Students at or above Level III in Reading and Mathematics
Grades 3-8, By Ethnicity

**PRELIMINARY
RESULTS**

Notes: Asian and Hispanic results were not reported in 1992-93. Multi-Racial results were not reported in 1992-93, 1993-94, and 1994-95.

Data received from LEAs and charter schools after July 15, 1998 are not included in this report.

The "Other" category dropped significantly in size between 1996-97 and 1997-98 as systems sought to reduce the number of unclassified students to a minimum.

NCDPI/TOPS/00000 The performance of the 129 students classed "Other" in 1997-98 is not readily comparable to the performance of "Other" students from previous years.

Reading

**PRELIMINARY
RESULTS**

Achievement Levels

Grade 3 Grade 4 Grade 5 Grade 6 Grade 7 Grade 8

Level I

Students performing at Achievement Level I do not have sufficient mastery of knowledge and skills in the subject area to be successful at the next grade level.

1994	13.9	10.1	9.8	9.2	9.6	6.0
1995	12.9	10.8	8.0	7.5	8.0	5.7
1996	11.3	9.0	8.9	8.8	8.5	5.5
1997	11.0	9.9	7.6	8.7	8.4	5.0
1998	8.5	7.9	6.1	7.3	7.4	3.4

Level II

Students performing at Achievement Level II demonstrate inconsistent mastery of knowledge and skills in the subject area and are minimally prepared to be successful at the next grade level.

1994	25.7	24.1	24.8	25.7	26.2	23.0
1995	23.7	25.1	23.8	26.6	23.5	21.5
1996	23.9	21.6	24.6	23.5	24.7	21.8
1997	23.2	22.4	21.6	24.2	23.8	20.0
1998	19.8	21.2	18.8	22.7	21.4	17.2

Level III

Students performing at Achievement Level III consistently demonstrate mastery of the grade level subject matter and skills and are well-prepared for the next grade level.

1994	36.1	44.0	41.8	41.3	38.9	44.2
1995	37.2	41.6	41.3	43.3	40.6	43.7
1996	37.9	44.8	41.3	40.4	39.4	45.8
1997	37.6	42.9	41.4	37.3	36.4	43.6
1998	36.4	41.5	40.4	39.3	39.0	43.7

Level IV

Students performing at Achievement Level IV consistently perform in a superior manner clearly beyond that required to be proficient at grade level work.

1994	24.3	21.8	23.7	23.8	25.3	26.8
1995	26.2	22.6	26.9	22.6	27.8	29.1
1996	26.9	24.6	25.3	27.4	27.4	26.8
1997	28.3	24.8	29.4	29.7	31.4	31.4
1998	35.3	29.4	34.8	30.7	32.1	35.8

Notes: Percents are rounded to the nearest tenth.

Due to rounding, data for some grades in certain years may not add to 100%.

Data received from LEAs and charter schools after July 15, 1998 are not included in this table.

Notes: *No scores are reported for groups with fewer than thirty students.

¹The standard for grade-level proficiency is a test score at Level III or above on end-of-grade tests in reading and mathematics.

Modifications are available for students with disabilities, limited English proficiency, or temporary disabilities.

All data rounded to the nearest tenth, therefore modification categories may not sum to 100%.

"Number tested" is the number of students who took the end-of-grade test in reading.

Data received from LEAs and charter schools after July 15, 1998 are not included in this table.

PRELIMINARY
RESULTS

1997-98 End-of-Grade Grade 3 Goal Summary Report

	Developmental Score Mean	Number of Observations*	# of Items	Percent Correct**
READING	145.7	98,305	56	
GOAL 1: Use strategies and processes that enhance control of communications skills development.			0	
GOAL 2: Use language for the acquisition, interpretation, and application of information.			138	66.1
OBJ 2.1: Identify, collect or select information and ideas.			59	69.8
OBJ 2.2: Analyze, synthesize, and organize information and ideas and discover related ideas, concepts or generalizations.			53	61.8
OBJ 2.3: Apply, extend, and expand on information and concepts.			26	66.4
GOAL 3: Use language for critical analysis and evaluation.			30	52.3
MATHEMATICS	142.3	98,761	80	
Math Computation			36	84.6
Math Applications			204	67.7
GOAL 1: Identify and use numbers to 1000 and beyond.			24	65.8
GOAL 2: Understanding and use of geometry.			24	78.5
GOAL 3: Understanding of classification, pattern, and seriation.			24	66.5
GOAL 4: Understand and use standard units of metric and customary measure.			36	68.0
GOAL 5: Use mathematical reasoning and solve problems.			36	59.2
GOAL 6: Understand data collection, display, and interpretation.			24	69.0
GOAL 7: Compute with whole numbers.			72	77.4
NUMBER OF STUDENTS TAKING FORM	M 33,055	O 32,716	P 32,534	

* "Number of Observations" includes students who attempted at least one item on the test.

** "Percent Correct" is the number of correct responses to an item divided by the number of students who took that item summed over all items for a goal or objective divided by the number of items for that goal or objective.

Data received from LEAs and charter schools after July 24, 1998 are not included in this table.

Notes: ¹"Number Tested" is the number of students who took the end-of-grade tests in reading. All numbers and averages are reported without chance scores added. Data are not reported where number tested is less than five.

²The standard for grade-level proficiency is a test score at Level III or above on end-of-grade tests in reading and mathematics. It was calculated by dividing the number of students proficient in both reading and mathematics by the number of students who took both tests.

The ethnic categories may not sum to the "Total Number Tested" because students may not have coded in an ethnic category.

³Denotes a charter school. For reporting purposes the charter school name has been abbreviated. The complete charter school name can be found in the appendix.

Data received from LEAs and charter schools after July 27, 1998 are not included in this table.

Notes: ¹"Number Tested" is the number of students who took the end-of-grade tests in reading. All numbers and averages are reported without chance scores added. Data are not reported where number tested is less than five.

²The standard for grade-level proficiency is a test score at Level III or above on end-of-grade tests in reading and mathematics. It was calculated by dividing the number of students proficient in both reading and mathematics by the number of students who took both tests.

The ethnic categories may not sum to the "Total Number Tested" because students may not have coded in an ethnic category.

³Denotes a charter school. For reporting purposes the charter school name has been abbreviated. The complete charter school name can be found in the appendix.

Data received from LEAs and charter schools after July 27, 1998 are not included in this table.

Notes: ¹"Number Tested" is the number of students who took the end-of-grade tests in reading. All numbers and averages are reported without chance scores added. Data are not reported where number tested is less than five.

²The standard for grade-level proficiency is a test score at Level III or above on end-of-grade tests in reading and mathematics. It was calculated by dividing the number of students proficient in both reading and mathematics by the number of students who took both tests.

The ethnic categories may not sum to the "Total Number Tested" because students may not have coded in an ethnic category.

³Denotes a charter school. For reporting purposes the charter school name has been abbreviated. The complete charter school name can be found in the appendix.

Notes: ¹"Number Tested" is the number of students who took the end-of-grade tests in reading. All numbers and averages are reported without chance scores added. Data are not reported where number tested is less than five.

²The standard for grade-level proficiency is a test score at Level III or above on end-of-grade tests in reading and mathematics. It was calculated by dividing the number of students proficient in both reading and mathematics by the number of students who took both tests.

The ethnic categories may not sum to the "Total Number Tested" because students may not have coded in an ethnic category.

³Denotes a charter school. For reporting purposes the charter school name has been abbreviated. The complete charter school name can be found in the appendix.

Data received from LEAs and charter schools after July 27, 1998 are not included in this table.

Notes: ¹"Number Tested" is the number of students who took the end-of-grade tests in reading. All numbers and averages are reported without chance scores added. Data are not reported where number tested is less than five.

²The standard for grade-level proficiency is a test score at Level III or above on end-of-grade tests in reading and mathematics. It was calculated by dividing the number of students proficient in both reading and mathematics by the number of students who took both tests.

The ethnic categories may not sum to the "Total Number Tested" because students may not have coded in an ethnic category.

³Denotes a charter school. For reporting purposes the charter school name has been abbreviated. The complete charter school name can be found in the appendix.

Data received from LEAs and charter schools after July 27, 1998 are not included in this table.

Notes: ¹"Number Tested" is the number of students who took the end-of-grade tests in reading. All numbers and averages are reported without chance scores added. Data are not reported where number tested is less than five.

²The standard for grade-level proficiency is a test score at Level III or above on end-of-grade tests in reading and mathematics. It was calculated by dividing the number of students proficient in both reading and mathematics by the number of students who took both tests.

The ethnic categories may not sum to the "Total Number Tested" because students may not have coded in an ethnic category.

³Denotes a charter school. For reporting purposes the charter school name has been abbreviated. The complete charter school name can be found in the appendix.

Data received from LEAs and charter schools after July 27, 1998 are not included in this table.

Notes: ¹Number Tested¹ is the number of students who took the end-of-grade tests in reading. All numbers and averages are reported without chance scores added. Data are not reported where number tested is less than five.

²The standard for grade-level proficiency is a test score at Level III or above on end-of-grade tests in reading and mathematics. It was calculated by dividing the number of students proficient in both reading and mathematics by the number of students who took both tests.

The ethnic categories may not sum to the "Total Number Tested" because students may not have coded in an ethnic category.

[†]Denotes a charter school. For reporting purposes the charter school name has been abbreviated. The complete charter school name can be found in the appendix.

Data received from LEAs and charter schools after July 27, 1998 are not included in this table.

Notes: ¹"Number Tested" is the number of students who took the end-of-grade tests in reading. All numbers and averages are reported without chance scores added. Data are not reported where number tested is less than five.

²The standard for grade-level proficiency is a test score at Level III or above on end-of-grade tests in reading and mathematics. It was calculated by dividing the number of students proficient in both reading and mathematics by the number of students who took both tests.

The ethnic categories may not sum to the "Total Number Tested" because students may not have coded in an ethnic category.

³Denotes a charter school. For reporting purposes the charter school name has been abbreviated. The complete charter school name can be found in the appendix.

Data received from LEAs and charter schools after July 27, 1998 are not included in this table.

Notes: ¹"Number Tested" is the number of students who took the end-of-grade tests in reading. All numbers and averages are reported without chance scores added. Data are not reported where number tested is less than five.

²The standard for grade-level proficiency is a test score at Level III or above on end-of-grade tests in reading and mathematics. It was calculated by dividing the number of students proficient in both reading and mathematics by the number of students who took both tests.

The ethnic categories may not sum to the "Total Number Tested" because students may not have coded in an ethnic category.

146 Denotes a charter school. For reporting purposes the charter school name has been abbreviated. The complete charter school name can be found in the appendix.

Data received from LEAs and charter schools after July 27, 1998 are not included in this table.

Note: The year of implementation is listed below the subject. Beginning in 1993-94, where possible, scores for the entire accountability year are reported. The 1995-96 data are based on all cycles of testing for the July 1 to June 30 accountability year. Algebra I was scaled in 1993-94, and U.S. History, English I, and Biology in 1994-95 and 1995-96. Bold vertical lines between years indicate that the scores changed from mean raw core scores to mean scale scores and therefore, are not comparable across years separated by the bold vertical lines. Numbers to the left of these lines are mean raw core scores and numbers to the right are mean scale scores. In 1995-96 and 1996-97, five tests were administered statewide in the five high school subject areas. Other end-of-course multiple-choice tests were administered as a local option and are not depicted in this report.

¹ Participation Index is the number of students enrolled in the course, divided by the number of students who were in the eighth grade the year in which typical students in the course were in grade eight. For example, since English I is typically a ninth-grade course, the eighth grade membership for the previous year is the denominator.

² The Algebra I score in 1993-94 is the mean scale score.

³ Average core score is the mean raw score on the common items for all students.

Data received from LEAs and charter schools after July 15, 1998 are not included in this table.

**Table 2. 1997-98 End-of-Course Multiple-Choice Test Results
Performance of Students with Disabilities or Limited English Proficiency**

Subject	Category	Number Tested	Percent**	Percent at or above Level III	Mean Scale Score

	Other Health Impaired	338	0.4	30.8	50.6
	Orthopedically Impaired	41	0.1	41.9	54.4
	Traumatic Brain Injured	23	0.0	*	*
	Other Exceptional Classifications	171	0.2	32.4	50.5
	Section 504	283	0.4	36.4	52.6
	Limited English Proficient	470	0.6	21.2	49.3

Notes: *No scores are reported for groups with fewer than thirty students.

**Percent for "Not Exceptional" through "Other Exceptional Classifications" is based on the sum of the students in those categories. Percent for "Limited English Proficient" and "Section 504" are based on the number tested in the "All Students" category.

The "All Students" and "Not Exceptional" categories are added for the purpose of comparison.

Data received from LEAs and charter schools after July 15, 1998 are not included in this table.

10	4,110	6.0	24.5	Less than 1	20,848	30.8	45.1
11	57,877	85.2	51.6	1 to 1.5	18,494	27.3	44.4
12	5,302	7.8	37.1	1.5 to 2	9,383	13.9	51.3
Post High School Plans				2 to 3	7,167	10.6	58.9
Seek employment	2,992	4.4	22.0	More than 3	6,302	9.3	71.2
Military service	3,498	5.2	32.5	Assigned but not done	2,925	4.3	51.4
Trade/Business school	2,043	3.0	28.0				
Community/Junior college	14,503	21.5	31.9				
Four-year college	37,373	55.5	63.9				
Undecided	5,741	8.5	38.4				
Other	1,244	1.8	36.0				

Data received from LEAs and charter schools after July 15, 1998 are not included in this table.

Table 9. 1997-98 End-of-Course Goal Summary Report
Algebra I

	Number of Observations*	Number of Items /Area	Mean Scale Score					
ALGEBRA I: The central point of each range of scale scores is based upon the 1994 State Average of 55.1	82,924	81	57.1					
GOAL 1: Use the Language of Algebra		32	51.6					
GOAL 2: Perform operations with real numbers		80	55.3					
GOAL 3: Solve equations and inequalities with one variable		104	53.4					
GOAL 4: Demonstrate an elementary understanding of relations and functions		80	52.6					
GOAL 5: Graph and use linear equations and inequalities		88	55.0					
GOAL 6: Graph and solve systems of linear equations and inequalities		56	54.6					
GOAL 7: Perform operations with polynomials		88	54.5					
GOAL 8: Work with ratios, proportions, and percents		32	53.4					
GOAL 9: Explore, graph, and interpret nonlinear equations		88	55.1					
Basic Operations and Equations (Goals 1-3)		216	55.3					
Linear Relationships (Goals 4-6)		224	56.0					
Ratios, Proportions and Percents, and Non-linear Relationships (Goals 7-9)		208	56.7					
NUMBER OF STUDENTS TAKING FORM	M 22,541	N 32	O 25	P 22,534	S 22,453	V 5,132	W 5,128	X 5,079

*"Number of Observations" includes students who attempted at least one item on the test.
Data received from LEAs and charter schools after July 24, 1998 are not included in this table.

Table 10. 1997-98 End-of-Course Goal Summary Report
Biology

	Number of Observations*	Number of Items /Area	Mean Scale Score			
BIOLOGY	78,541	95	56.2			
SKILL GOALS						
GOAL 1: Develop an understanding of the nature of science		20	52.7			
GOAL 2: Develop the ability to use science process skills		289	55.8			
GOAL 3: Develop the ability to use science manipulative skills		12	51.8			
GOAL 5: Have an understanding of the relevance of current topics in biology		24	52.2			
Conceptual Knowledge: Understand the fundamental concepts, principles, and facts of science		225	55.4			
CONTENT GOALS						
GOAL 6: Understand the chemical and physical basis of life		180	54.2			
GOAL 7: Understand the continuity of life		228	55.6			
GOAL 8: Have an understanding of ecology		162	56.3			
NUMBER OF STUDENTS TAKING FORM	J 8,511	K 26,186	L 17,757	M 17,597	N 21	O 8,469

*"Number of Observations" includes students who attempted at least one item on the test.
Data received from LEAs and charter schools after July 24, 1998 are not included in this table.

**Table 11. 1997-98 End-of-Course Goal Summary Report
Economic, Legal, & Political Systems**

	Number of Observations*	Number of Items /Area	Mean Scale Score
Core Score	77,334	100	54.7
GOAL 1: Awareness and Understanding of Issues and Problems Confronting the American Economic, Legal, and Political Systems		56	51.7
GOAL 2: Knowledge of the Rights and an Understanding of the Obligations of Responsible Citizenship		70	52.3
GOAL 3: Understand How and Why Individuals and Groups Make Economic Decisions		60	53.3
GOAL 4: Know Features of the Economic System of the United States		66	52.6
GOAL 5: Understand Factors Influencing the United States Economy		66	52.8
GOAL 6: Understand the Function and Importance of the North Carolina and United States Constitutions		66	53.5
GOAL 7: Know the Structure and Functions of Local, State, and National Governments and Understand their Relationship		60	53.0
GOAL 8: Understand Why Laws are Needed and How they are Enacted, Implemented, and Enforced		66	54.2
GOAL 9: Understand How Political and Legal Systems Provide for Balancing Competing Interests and Resolving Conflicts		60	53.4
GOAL 10: Understand the Influence of Ethical and Moral Principles and Religious Beliefs on the Development of our Economic, Legal, and Political Systems		30	53.3
Economics		318	53.8
Law and Government		282	55.1

U.S. History**

**PRELIMINARY
RESULTS**

	Number of Observations*	Number of Items /Area	Mean Scale Score
U.S. History	68,013	100	56.3
GOAL 1: Analyze elements in the American Colonial experience that led to separation from England		58	53.1
GOAL 2: Apply ideas of self government as expressed in America's founding documents		66	53.2
GOAL 3: Judge the effectiveness of the institutions of the new nation in completing its independence (1781-1815)		48	52.8
GOAL 4: Assess the contending goals of nationalism and sectionalism in the period 1815-1850		76	53.4
GOAL 5: Evaluate the Civil War and Reconstruction as an affirmation of the power of the national government		56	52.7
GOAL 6: Interpret economic, social, and political trends of the late 19th and early 20th centuries		48	52.7
GOAL 7: Analyze the causes and effects of the United States involvement in international affairs		80	53.3
GOAL 8: Appraise the economic, social, and political changes of the decades of the 1920s and 1930s		64	53.8
GOAL 9: Analyze and evaluate the significance of causes, events, and effects of the World War II era		80	54.1
GOAL 10: Trace economic and social developments and assess their significance for the lives of Americans in the last half-century		80	55.4
GOAL 11: Analyze changes in American political life in the last half-century		80	55.1
GOAL 12: Evaluate the conduct of United States foreign policy over the last half-century		64	55.0

Notes: The ethnic categories may not sum to the "Total Number Tested" because students may not have coded in an ethnic category.
 All numbers and averages are reported without chance scores added. Data were deleted where numbers tested were less than five.
 Data received from LEAs and charter schools after July 27, 1998 are not included in this table.

¹Denotes a charter school. For reporting purposes the charter school name has been abbreviated. The complete charter school name can be found in the appendix.

Notes: The ethnic categories may not sum to the "Total Number Tested" because students may not have coded in an ethnic category.

All numbers and averages are reported without chance scores added. Data were deleted where numbers tested were less than five.

Data received from LEAs and charter schools after July 27, 1998 are not included in this table.

*Denotes a charter school. For reporting purposes the charter school name has been abbreviated. The complete charter school name can be found in the appendix.

Notes: The ethnic categories may not sum to the "Total Number Tested" because students may not have coded in an ethnic category.

All numbers and averages are reported without chance scores added. Data were deleted where numbers tested were less than five.

Data received from LEAs and charter schools after July 27, 1998 are not included in this table.

*Denotes a charter school. For reporting purposes, the charter school name has been abbreviated. The complete charter school name can be found in the appendix.

Notes: The ethnic categories may not sum to the "Total Number Tested" because students may not have coded in an ethnic category.

All numbers and averages are reported without chance scores added. Data were deleted where numbers tested were less than five.

Data received from LEAs and charter schools after July 27, 1998 are not included in this table.

¹Denotes a charter school. For reporting purposes the charter school name has been abbreviated. The complete charter school name can be found in the appendix.

Notes: The ethnic categories may not sum to the "Total Number Tested" because students may not have coded in an ethnic category.

All numbers and averages are reported without chance scores added. Data were deleted where numbers tested were less than five.

Data received from LEAs and charter schools after July 27, 1998 are not included in this table.

*Denotes a charter school. For reporting purposes the charter school name has been abbreviated. The complete charter school name can be found in the appendix.

Notes: The ethnic categories may not sum to the "Total Number Tested" because students may not have coded in an ethnic category.
All numbers and averages are reported without chance scores added. Data were deleted where numbers tested were less than five.
Data received from LEAs and charter schools after July 27, 1998 are not included in this table.

*Denotes a charter school. For reporting purposes the charter school name has been abbreviated. The complete charter school name can be found in the appendix.

245

Appendix
